PreSet[®] Hub Assemblies

Chapter 1
Introduction

PreSet[®] Hub Assemblies

ConMet PreSet hub assemblies are also fully-serviceable in the field and require only periodic inspections. Plus, the bearings in PreSet hubs are pre-adjusted at the factory, so there's no need for manual adjustment during installation.

TIMKEN

Engineered for superior performance and increased reliability, Timken matched cup and cone bearing sets help increase uptime. Precisely matched sets enable easier installation and bearings will distribute loads more evenly, extending bearing life.

TIMKEN WHEEL BEARING SETS

<u>PART NUMBER</u>	<u>DESCRIPTION</u>
SET401	572/580 BEARING SET
SET403	592A/594A BEARING SET
SET413	HM212011/HM212049 BEARING SET
SET414	HM218210/HM218248 BEARING SET
SET415	HM518410/HM518445 BEARING SET
SET423	6420/6461A BEARING SET
SET424	552A/555S BEARING SET
SET429	MATCHED WHEEL BEARING SET
SET430	MATCHED WHEEL BEARING SET

- Engineered steel
- Precision profiles
- Tight tolerances
- Enhanced surface finishes
- Greater flexibility & compatibility
- Easier Installation

Bendix manufactures premium air brake products to meet the most demanding heavy duty needs.

The Bendix D-2 governor automatically controls the air pressure in the air brake or air supply system between a maximum (cut-out) pressure and a minimum (cut-in) pressure.

BENDIX PRODUCTS

<u>PART NUMBER</u>	<u>DESCRIPTION</u>
K070796	ADB22X BRAKE PAD KIT

383-0164	VOYAGER FRONT AXLE SEAL
393-0173	VOYAGER DRIVE AXLE SEAL

Stemco manufactures the two-piece Hub Seal design for improved dirt exclusion. Grit Guard hub seals have endured more than 40 years of dirty, unfriendly road environments that destroy wheel end components. Grit Guard endures and performs where other hub seals fail, making it the #1 choice for commercial vehicles working in grueling environments.

ARMADA CAMSHAFT PRODUCT

PART NUMBER DESCRIPTION

AR0130L	1.5X10X23.50" LH (E5520)
